

CERTIFICATIONS

The Indian Green Building Council (IGBC), part of the Confederation of Indian Industry (CII) was founded in the year 2009. The aim of the council is to create a sustainable built environment in India. It is the national authority for green building certification in India.

ISO 9001:2015 is an international standard related to quality management system applicable to any organization, which is based on customer focus and process approach. It provides a framework to guide the organization in its quest for continuous improvement in its products and services.

SGS is the worldwide leader in testing, inspection and certification services. It is a member of the International Organization of Standardization (ISO) and is recognized as a leading provider of quality management systems, including ISO 9001:2015. SGS provides a wide range of services, including product testing, inspection, and certification, to help organizations improve their quality management systems.

The Singapore Green Label is a mark of endorsement on green buildings. It is awarded to buildings that have achieved a high level of environmental performance. The label is awarded to buildings that have achieved a high level of environmental performance, including energy efficiency, water efficiency, and indoor air quality.

Safe and Healthy Living through Biogreen Products. Biogreen products are made from natural materials and are free from harmful chemicals. They are safe for use in homes, schools, and offices. Biogreen products are also eco-friendly and help reduce carbon footprint.
